Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This application has been examined. This application is a continuation-in-part (C-I-P) of serial number 09/772,064, filed January 30, 2001, now US Patent 6,708,710, which is continuation-in-part of serial number 09/435,375, filed November 5, 1999, now US Patent 6,216,732, which is a continuation-in-part of serial number 08/961,339, filed October 30, 1997, now abandoned. This action is in response to an election requirement filed November 30, 2005. Claims 1-27 (claims of Group I) have been elected without traverse. Nonelected claims 28-63 (claims of Group II) have been cancelled. Informational disclosure statements (IDS) (4) filed October 2, 2003, December 4, 2003, May 6, 2004, and January 30, 2006 have been considered. An action the merits of claims 1-27 is included in this Office action.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

Art Unit: 3753

4. Claims 1-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alderman. In particular note the valve system which valves the "evacuation process" line 11 and the fluid refill process" line 21. A pump 18 which acts a "vacuum" pump or a positive discharge pump is shown. The valves 10, 22 and 18 are multi-positional. A filter 14 is shown. A plurality (at least two) of reservoirs 1 and 8 are shown. It would have been obvious to one of ordinary skill in the art to operate the fluid system of Alderman by the recited steps.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the three-way valve 47 of Martel.
